

FY2022 Baich Grant Awardee

Dr. Jon Klingensmith, Assistant Professor of Electrical and Computer Engineering at Southern Illinois University Edwardsville, is the winner of the FY2022 Annette and Henry Baich Research Award from the SIUE Graduate School.

The Baich Award is given annually to the most outstanding STEP grant proposal for basic research conducted within the parameters of the Sigma Xi Society. Disciplines include the physical sciences, life and medical sciences, earth science, engineering, psychology and mathematics.

Klingensmith is an assistant professor in the School of Engineering's (SOE) Department of Electrical and Computer Engineering (ECE) who specializes in digital signal processing and biomedical imaging.

Dr. Klingensmith's award-winning proposal, titled, "Electro-thermal Imaging: Feasibility for Breast Tumor Detection", was chosen from a competitive field of submissions.

Please join us in congratulating Dr. Klingensmith on this significant recognition!
